The Stewards notify those concerned of the following:

### Refuelling Connection Time Restrictions - Amendment

In accordance with Articles 18.1 and 118.5 of the GT Challenge Europe powered by AWS Sporting Regulations 2026, there will be a restriction on the length of refuelling (i.e. the time that the fuel nozzle is connected to the car) during all refuelling pit stops, with the exception of emergency pit stops, in the race at this competition. This restriction has been omitted from the Balance of Performance document applicable to this competition but is confirmed as below.

For all refuelling pit stops: The minimum refuelling time, for all cars, is **46.0 secs.**

There is no tolerance applicable in relation to this restriction, with the exception of emergency pit stops. The length of any other pit stops will be free.
