This report can only be used for requests involving your team cars

Ce rapport ne peut être utilisé que pour une demande impliquant une voiture de votre team

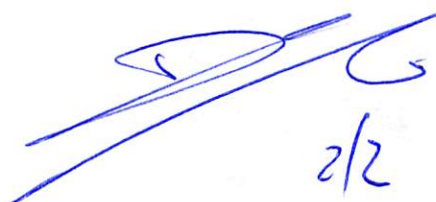

1/2

Demande – request:

During technical scrutineering we have been informed that the extra light fitted on our car are not allowed for the Event because not ECE homologated. The same happens with all Lamborghini Huracans equipped with the extra light kit built and sold by the manufacturer.

Lamborghini explain us that the request of Technical scrutineer is that the light must be present whether in the Homologation Form of the car, as an Endurance VO, or must have ECE homologation. Lamborghini also show us *and* the Scrutineers to have a written declaration from FIA which APPROVES the project of the extra light as mounted on the car and is waiting the production of the Endurance VO to complete the Homologation form.

For safety reasons, seen that the track lights are not enough to drive safely without extra light, seen that the Lamborghini Huracan lights kit is informally approved by FIA and seen that the FIA in the Annex J does not need any ECE homologation for lights, we ask to be authorized to use for this Event the lights kit build by Lamborghini.
