**Race Director's Note**

During Qualifying, all drivers are reminded that they must drive at racing speed on the track.

It has come to our attention, in previous events, that some drivers are slowing down to increase the gap to the car in front in the last sector, especially in the last turns.

Race control will penalise anyone who is seen to impede another driver's lap time.

The penalty could be anything up to and including the cancellation of the driver's best lap time of the session.

Alain Adam  
Race Director
