

STEWARDS
LOG NR 21

BULLETIN No. 07

From: The Stewards
To: All Competitors
All Officials

Date: 22nd October 2020
Time: 11:50 hrs

The Stewards notify all competitors and officials of the following:

Technical Pit Stops

In accordance with article 20.3 of the GT Challenge Europe Sporting Regulations, each car must complete one Technical Pit Stop, which must have a minimum duration of four minutes from pit-in to pit-out, which must be served between the start of the 12th hour (race time 11:00:00) and before the end of the 22nd hour of the race (race time 21:59:59) including during Full Course Yellow or Safety Car procedures.

Any car failing to complete the Technical Pit Stop during the prescribed time will be given a stop-and-go penalty of at least an equivalent duration of the missed Technical Pit Stop as well as any other penalty deemed suitable by the Stewards.

Competitors should be aware that the Stewards will not consider any pit stop of a duration (pit-in to pit-out) of less than three minutes 50 seconds to constitute a Technical Pit Stop and any such pit stops will be disregarded with respect to this requirement and the car concerned will still be expected to undertake a full Technical Pit Stop.
