

NOTE FROM THE SPORTING DIRECTOR

Due to the relatively late changes to the timetable of the Paul Ricard round of the GT World Challenge Europe powered by AWS, further to the Covid-19 pandemic, some of the sessions now take place after dark. The circuit has lighting and light panels to replace flags.

We understand that this change might have been too late for all teams to plan to bring backlit panels and other lights for night running.

Nevertheless, we strongly recommend that teams which have their backlit panels available should fit them, in order to improve conditions for television and for race control.

Additional lights according to article 33.2 are authorized.
