

BULLETIN No. 12

From: The Stewards
To: All Competitors
All Officials

Date: 17th April 2021
Time: 19:55 hrs

The Stewards notify all competitors and officials of the following:

Revised Refuelling Connection Time Restrictions

Following an adjustment to the Balance of Performance applicable for the remainder of this competition, the restriction on the length of refuelling (i.e. the time that the fuel nozzle is connected to the car) during each of the mandatory pit stops in the race at this competition has been adjusted. The adjusted restriction in accordance with Article 20.1 and 20.2 of the Fanatec GT Challenge Europe powered by AWS Sporting Regulations is confirmed below:

For each mandatory pit stop: The minimum refuelling connection time, for all cars, is now 42 seconds.

There is a one-second tolerance on the minimum refuelling connection time, which may be used once during the race, in accordance with Article 20.1 of the above regulations.

There are no time restrictions on any non-mandatory pit stops.
