

BULLETIN No. 13

From: The Stewards **Date:** 17th April 2021
To: All Competitors **Time:** 20:00 hrs
All Officials

The Stewards notify all competitors and officials of the following:

Refuelling - coupling and uncoupling of the fuel hose while on jacks

For the avoidance of doubt, Article 37.1 sub-article 2) of the Fanatec GT Challenge Europe powered by AWS Sporting regulations is clarified as follows:

2) While refuelling is being carried out, the driver may stay in the car, or driver changes may take place, but the engine must be switched off. If tyre changes will also take place, the coupling and uncoupling of the fuel hose to the car may only take place when the car is **fully** up on its jacks **and is static.**"
