

TECHNICAL NOTE 1

FANATEC GT WORLD CHALLENGE EUROPE POWERED BY AWS

ENDURANCE CUP - BARCELONA

In accordance with article 4.1 3), the Technical Board hereby informs the Sporting Board and all Competitors that it has authorised two models of car to compete in the Barcelona round of the Fanatec GT World Challenge Europe Endurance Cup powered by AWS, in order to conduct the initial balance of performance process for the 2022 season.

The models in question are :

- BMW M4
- Audi R8 LMS EVO2

These cars will run as Invitational cars. The Technical Board proposes that they should be considered invisible in terms of the results, and should not be eligible for podiums, points or prize money.

We would kindly ask that the Sporting Board make a determination on this matter.

Signed by the Technical Board.
