

From The Stewards of the Meeting

Bulletin N° 18

To: All Competitors:
All Officials

Date: 01 July 2023

Time: 14.30hrs

POSTED
at 14 h 38 m

The Stewards notify those concerned of the following:

Clarification on article 36.10 and the use of skates:

[...] In terms of refuelling, once the nozzle, refueller and refuelling equipment are out of the working zone, skates may be placed under the car [...]

For the avoidance of doubt, for the technical pit stop, it is clarified that mechanics may have the skates ready in the working zone. They may only place them under the car when all the refuelling equipment has been cleared. When in the working zone, the skates must be under full control of the mechanics at all time, and any infractions will be reported to the Stewards.

Furthermore, it is reminded that under no circumstances may skates be placed under the car when refuelling is ongoing.
