

BULLETIN No. 03

From: The Stewards  
To: All Competitors  
All Officials

Date: 03 May 2024  
Time: 18:40 hrs  
Number of Pages: 1

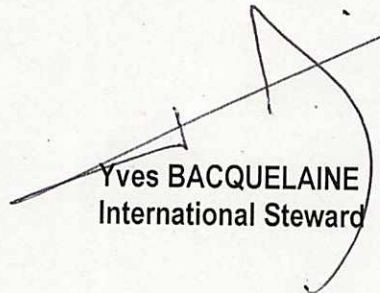

The Stewards notify those concerned of the following:

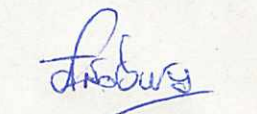

**Pit gantry and equipment rigs**

Once a Team has positioned its pit gantry/equipment rig in relation to its working area, for safety reasons this may not be moved or repositioned during any on-track session. The only exception to this is movements necessary in order to push a car into the garage, in which case the pit gantry/equipment rig must then be replaced in its original position.

If required, it is permitted for Teams to reposition their pit gantry equipment rig between sessions, subject to the approval of the Pit Lane Manager.
