STEWARDS' DECISION

From: The Stewards

To: ROWE RACING

The Stewards, having received a report from the Technical Delegate, summoned and heard from the competitor's representative, have considered the following matter and determine the following:

No. / Driver: 98 -

Competitor: ROWE RACING

Time: 10:10

Session: Qualifying 3

Fact: Car #98 allegedly did not connect his datalogger during the session

Offence: Breach of Article 504 of the GT World Challenge Europe powered by AWS 2025 Sporting Regulations

Decision: No Further Action

Reason: The Stewards received a report from the Technical Delegate stating data they did not receive any data from car's 98 data logger. The Team Manager stated during the hearing that the data logger was connected and with the indicative light on. This fact was confirmed by the Emotag responsible, who added that he verified the cable and it was connected. The Stewards confirmed with Timekeeping that they received information from that data logger, with exception of the one from Emotag. Based on this, the Stewards the fact was due to a failure on the equipment which could not be imputed to the Team and, therefore, decide to take no further action in this case.

Competitors are reminded that they have the right to appeal certain decisions of the Stewards, in accordance with Article 15 of the FIA International Sporting Code, within the applicable time limits.
