

STEWARDS' DECISION

From: The Stewards

To: HRT Ford Racing

The Stewards, having received a report from the Technical Delegate, summoned and heard from the competitor's representative, have considered the following matter and determine the following:

No. / Driver: 65 -

Competitor: HRT Ford Racing

Time: After Qualifying Session

Session: Qualifying Session

Fact: Data logger of Car 65 had been disconnected before the Qualifying Sessions, with the result that no qualifying data was recorded.

Offence: Breach of Article 504.7 of the GT World Challenge Europe 2026 Sporting Regulations.

Decision: Deletion of all lap times set during the Qualifying Sessions (= Qualifying 1, 2 and 3)

Reason: The Competitor was summoned and heard before the decision was taken. Article 504.7 of the Sporting Regulations requires the data logger to operate throughout the Competition, including during every practice and qualifying session. The report of the Series Technical Delegate states that, according to the Official Data Technician, the data logger of Car 65 was unplugged. The Team Manager could not give the Stewards an explanation. He accepted it as a mistake that the team will address internally. Whatever the cause, the data logger did not operate throughout the Qualifying Sessions as required. The Stewards therefore decided to impose the above penalty.

Competitors are reminded that they have the right to appeal certain decisions of the Stewards, in accordance with Article 15 of the FIA International Sporting Code, within the applicable time limits.
